■ ARPU RISES MARGINALLY TO ₹146

Voda Idea's losses widen to ₹7,674 cr

JATIN GROVER New Delhi, May 16

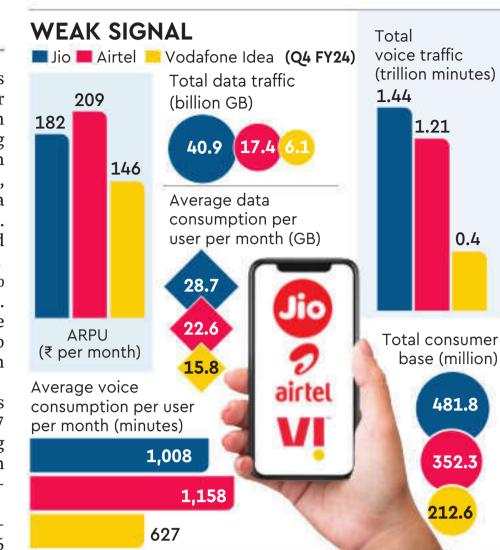

VODAFONE IDEA'S NET loss for the January-March quarter widened to ₹7,674 crore, from ₹6,986 crore in the preceding quarter, owing to the fall in revenues and base effect of Q3, where the company recorded a one-time gain of ₹755.5 crore. Bloomberg had estimated

the net losses at ₹7,701 crore. Total expenses fell 0.8% sequentially to ₹18,303 crore. On a year-on-year basis, the expenses rose 7.5%, owing to which losses widened from

₹6,419 crore a year ago. Revenues from operations fell 0.6% q-o-q to ₹10,607 crore, missing the Bloomberg estimate of ₹10,696 crore. On a year-on-year basis, the revenue rose 0.7%.

Consolidated Ebitda surpassed the estimates at ₹4,336 crore and fell 0.3% sequentially. Bloomberg had pegged Ebitda at ₹4,321 crore. Ebitda margin expanded 10 basis points to 40.9% from 40.8% in the preceding quarter.

On the operational front, the average revenue per user (Arpu) rose marginally sequentially to ₹146.The reason for increase in Arpu can be attributed to increase in 4G subscribers, consumer upgrades and data consumption on the network. The growth in Arpu restricted for the company in absence of a tar-

iff hike. In the January-March quarter, the company's 4G subscriber base rose to 126.3 million from 125.6 million in the preceding quarter.

"We registered growth in ARPU and 4G subscribers for 11 successive quarters. Our equity fundraise of ₹21,500 crore will enable us to kickstart the investment cycle to expand our 4G coverage as well as launch of 5G services to effectively participate in the industry growth opportunities,"

Akshaya Moondra, CEO, Vodafone Idea, said in a statement.

The company's average data usage per 4G customer rose to 15.8 GB, compared to 15.7 GB in the preceding quarter. Total data volume rose marginally qo-q to 6.05 billion GB.

VIL lost 2.6 million mobile subscribers, taking its user base to 212.6 million at the end of March. The blended churn of subscribers fell to 3.9% compared to 4.3% in the October-December period.

GCCs, startups lead AI adoption

GLOBAL CAPABILITY CEN-**TRES** (GCCs) and startups are at the forefront of AI adoption in India, according to a recent EY report. The current year so far has seen a surge in innovation and implementation of GenAI across sectors. Companies have been actively launching proofs of concept (POCs) and bringing GenAI-powered applications into production.

Big Tech vendors have intro-

duced their models to the Indian market, while startups have driven rapid innovation, particularly in language technology and GPU cloud services.

Several challenges still hinder the full realisation of potential. Issues such as hallucination in AI models, alignment with enterprise policies and data privacy concerns are prominent. The dynamic cost structure of LLM services affect investment decisions,

slowing the pace of adoption.

To address these challenges, a two-speed approach is recommended.This involves continued rapid experimentation in a structured manner, moving beyond numerous POCs to focus on those with significant transformational potential. Simultaneously, building a robust enterprise AI platform is crucial to support long-term scalability and sus-— FE BUREAU

Zoho plans \$700-mn foray into chipmaking

MUNSIF VENGATTIL New Delhi, May 16

SOFTWARE FIRM ZOHO is planning a foray into chipmaking and seeking incentives from the government, two sources with direct knowledge of the proposal said, with one of them pegging the investment plan at \$700 million.

Zoho offers software and related services on subscription to businesses in 150

countries, competing with the likes of Microsoft and Salesforce. One source said Zoho has also identified a tech partner to help set up the operation from scratch, without naming the firm.

The government has put in place a \$10-billion package to boost the semiconductor industry as it hopes to compete with the likes of Taiwan.

Zoho is proposing to manufacture compound semiconductors, which have specialised commercial applications and are made from alternatives to the more-commonly used silicon in chip-

making, the two sources said. The proposal is being reviewed by the panel that drives the chip initiatives at the IT ministry, they added. The ministry has sought more clarity from Zoho on the customers it intends to do business with, a **— REUTERS** source said.

Acer to add 100 stores in 100 cities this fiscal,

PADMINI DHRUVARAJ Bengauru, May 16

says MD

ACER INDIA IS set to expand its retail footprint significantly by opening 100 new stores across 100 cities in FY25, Harish Kohli, managing director of Acer India, told FE. "We have a partner based out of Gujarat who wants to sign with us 100 Acer stores in 100 different cities, and that's happening today (Thursday)," Kohli said on the sidelines of the company's consumer brand launch in Bengaluru.

Acer announced the launch of its Acerpure Consumer Electronics brand, which includes products such as TVs, water purifiers, air circulator fans, vac-

uum cleaners, personal care products and more.

The first target would be \$100 million in business from Acerpure. HARISH KOHLI,

MD, ACER INDIA

All Acerpure products will be made

locally, in col-

laboration with Dixon Technologies. There are also plans to export these products in the coming years.

Kohli said the first milestone would

be achieving \$100 million in business from the Acerpure side. "We aim to reach this goal within 12 months, depending on the availability of products for our sales team to sell," he said.

On how this expansion could aid Acer's growth in India and help it gain market share, Kohli said, "With 7.3 million assets underwarranty or aftersales support, we have a strong base of consumers who recognise the Acer brand. This expansion is yet another opportunity for them to engage with the brand, and their satisfaction will lead to more purchases."

On the PC market, which is a major contributor to revenue, Kohli said, "The last two years have seen a negative growth in the total addressable market (TAM), but we were the

only company growing."
