Review Report on Interim Condensed Ind AS Standalone Financial Statements

Review Report to The Board of Directors Info Edge (India) Limited

We have reviewed the accompanying Interim Condensed Ind AS standalone financial statements of Info Edge (India) Limited (the 'Company') which comprise the Condensed Balance Sheet as at December 31, 2018, and the related Condensed Statement of Profit and Loss (including other Comprehensive Income), the Condensed Statement of Cash Flows and Condensed Statement of Changes in Equity for the quarter and period ended December 31, 2018 and a summary of the significant accounting policies and other explanatory information (together hereinafter referred to as the "interim condensed Ind AS standalone financial statements".

The management of the Company is responsible for the preparation and presentation of these interim condensed Ind AS standalone financial statements in accordance with the Indian Accounting Standards ("IND-AS") prescribed under Section 133 of the Companies Act, 2013, read with the relevant rules issued thereunder and other recognised accounting practices and policies. The interim condensed Ind AS standalone financial statements are the responsibility of the Company's management and have been approved by the Board of Directors. Our responsibility is to express a conclusion on the Interim condensed Ind AS standalone financial statements based on our review.

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing issued by the ICAI and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying interim condensed Ind AS standalone financial statements have not been prepared in all material respects in accordance with recognition and measurement principles of Ind AS 34 prescribed under Section 133 of the Companies Act, 2013, read with relevant rules issued thereunder and other recognized accounting practices and policies.

This report on the Interim condensed Ind AS standalone financial statements has been issued solely in connection with preparation of the Company's quarterly financial information.

Notes to the interim condensed financial statements for the year ended December 31, 2018

1. Corporate Information

Info Edge (India) Ltd (the Company) is a public limited company domiciled and incorporated under the provisions of the Companies Act applicable in India. The registered office of the Company is located at GF-12A, 94 Meghdoot Building, Nehru Place, New Delhi – 110019 and principal place of business is in B-8, Sector-132, Noida-201 304. Its shares are listed on two stock exchanges of India. The Company is primarily engaged in providing online & offline services primarily through its online portal Naukri.com, Jeevansathi.com, 99 acres.com, shiksha.com & offline portal Quadrangle.com.

The interim condensed financial statements are approved for issue by the Company's Board of Directors on January 29, 2019.

2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these interim condensed financial statements. These policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in accounting policy hitherto in use.

2.1 Basis of preparation

(i) Compliance with Ind AS

These interim condensed financial statements have been prepared in accordance with the Indian Accounting Standard 34 (Ind AS 34) Interim Financial Reporting, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI). The Ind AS are prescribed under Section 133 of the Act read with rule 3 of the Companies (Indian Accounting Standards) Rules, 2015, as amended by notification dated March 31, 2016.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III (Division II) to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

The financial statements are presented in Indian Rupees and all amounts disclosed in the financial statements and notes have been rounded off upto two decimal points to the nearest Million (as per the requirement of Schedule III), unless otherwise stated.

(ii) Historical Cost Convention

The Financial statements have been prepared on a historical cost basis, except for the following:

- Certain financial assets and liabilities (including derivative instruments) which are measured at fair value / amortised cost;
- Defined benefit plans-plan assets measured at fair value; and
- Share based payments.

2.2 Property, plant and equipment

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are recognized in profit or loss during the reporting period, in which they are incurred.

Depreciation methods, estimated useful lives and residual value

Depreciation is provided on a pro-rata basis on the straight line method over the estimated useful lives of assets, based on internal assessment and independent technical evaluation done by the Management expert which are equal to, except in case of Plant and Machinery, Furniture and Fixtures and Vehicles where useful life is lower than life prescribed under Schedule II to the Companies Act, 2013, in order to reflect the actual usage of the assets.

| Assets | Estimated useful life (Years) |
|------------------------|-------------------------------|
| Building | 60 |
| Computers | 3 |
| Plant and Machinery | 10 |
| Furniture and Fixtures | 8 |
| Office Equipment | 5 |
| Vehicles | 6 |

The leasehold improvements are depreciated over the assets' useful life or over the shorter of the assets' useful life and the lease term.

The asset's useful lives and methods of depreciation are reviewed at the end of each reporting period and adjusted prospectively, if appropriate.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing net disposal proceeds with carrying amount of the asset. These are included in profit or loss within other income.

Assets costing less than or equal to Rs. 5,000 are fully depreciated pro-rata from date of acquisition.

2.3 Intangible assets

Intangible assets acquired separately are measured on initial recognition at historical cost. Intangibles assets have a finite life and are subsequently carried at cost less any accumulated amortization and accumulated impairment losses if any.

Intangible assets with finite lives are amortized over the useful life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit or loss when the asset is derecognized.

Amortisation methods and estimated useful lives

Assets Estimated useful life (Years) Enterprise resource planning software 5 Other software licenses 3

Assets costing less than or equal to Rs. 5,000 are fully amortised pro-rata from date of acquisition.

2.4 Impairment of non-financial assets

Assessment is done at each balance sheet date as to whether there is any indication that an asset may be impaired. If any such indication exists or when annual impairment testing for an asset is required, an estimate of the recoverable amount of the asset/cash generating unit is made. Recoverable amount is higher of an asset's or cash generating unit's fair value less costs of disposal and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. For the purpose of assessing impairment, the recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. The smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets, is considered as a cash generating unit (CGU). An asset or CGU whose carrying value exceeds its recoverable amount is considered impaired and is written down to its recoverable amount. Assessment is also done at each balance sheet for possible reversal of an impairment loss recognized for an asset, in prior accounting periods.

2.5 Foreign currency translations

(i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency') i.e., Indian Rupee (INR) which is its presentation currency as well.

(ii) Transactions and balances

Initial recognition

On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

Subsequent recognition

As at the reporting date, foreign currency monetary items are translated using the closing rate and non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the initial transaction.

Exchange gains and losses arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the year or in previous financial statements are recognised in profit or loss in the year in which they arise.

During the period ended December 31, 2018, the company has adopted Appendix B to Ind AS 21 – Foreign Currency Transactions and Advance Considerations which clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income when an entity has received or paid advance consideration in a foreign currency. The effect on account of adoption of this amendment was insignificant.

Translation of foreign operations

The financial statements of foreign operations are translated using the principles and procedures mentioned above, since these businesses are carried on as if it is an extension of the Company's operations.

2.6 Revenue recognition

Effective April 1, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the modified retrospective approach, applied to contracts that were not completed as of April 1, 2018. In accordance with modified retrospective approach, the comparatives have not been retrospectively adjusted. Refer Note 2.6 "Significant Accounting Policies" in the Company's 2018 Annual Report for the policies in effect for revenue prior to April 1, 2018. The effect on adoption of Ind AS was insignificant.

Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration we expect to receive in exchange for those services. (net of goods and services tax)..

The Company earns revenue significantly from the following sources viz.

- a) Recruitment solutions through its career web site, Naukri.com:Revenue is received primarily in the form of fees, which is recognized prorata over the subscription / advertising /
 service agreement, usually ranging between one to twelve months.
- b) Matrimonial web site, Jeevansathi.com, Real Estate website, 99acres.com and Education classified website, Shiksha.com:-
 - Revenue is received in primarily the form of subscription fees, which is recognized over the period of subscription / advertising / service agreement, usually ranging between one to twelve months. The revenue is recognized on principal to principal basis and recognized gross of agency/commission fees, as applicable in case of Jeevansathi.com.
- c) Placement search division, Quadrangle:-Revenue is received in the form of fees, for placements at various levels in a client's organization. Revenue is recognized on the successful completion of the search and selection activity.
- d) Resume Fast Forward Service:The revenue from Resume Sale Services is earned in the form of fees and is recognized on completion of the related service.

Revenue in relation to rendering of the services mentioned in (a) & (b) above where performance obligations are satisfied over time and where there is no uncertainty as to measurability or collectability of consideration, is recognized ratably over the period of in which services are rendered (subscription period) and rendering of the services mentioned in (c) to (d) above are recognised in the accounting period in which the services are rendered. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved.

In respect of (a) and (d) above, the unaccrued amounts are reflected in the Balance sheet as Income received in advance (deferred sales revenue).

The company has as a matter of practical expedient recognised the incremental costs of obtaining a contract as an expense when incurred, since the amortisation period of the asset that the entity otherwise would have recognised is generally one year or less.

2.7 Retirement and other employee benefits

(i) Short-term obligations

Liabilities for salaries, including other monetary and non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other Long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees upto the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The Company operates the following post-employment schemes:

- a) defined contribution plans provident fund
- b) defined benefit plans gratuity plans

a) Defined contribution plans

The Company has a defined contribution plan for the post-employment benefit namely Provident Fund which is administered through the Regional Provident Fund Commissioner and the contributions towards such fund are recognised as employee benefits expense and charged to the Statement of Profit and Loss when they are due. The Company does not carry any further obligations with respect to this, apart from contributions made on a monthly basis.

b) Defined benefit plans

The Company has defined benefit plan, namely gratuity for eligible employees in accordance with the Payment of Gratuity Act, 1972 the liability for which is determined on the basis of an actuarial valuation (using the Projected Unit Credit method) at the end of each year. The Gratuity Fund is recognised by the income tax authorities and is administered through Life Insurance Corporation of India under its Group Gratuity Scheme.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the tenor of the related obligation. The liability or asset recognized in the balance sheet in respect of gratuity is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The net interest cost is calculated by applying the discount rate to the net balance of the defined

benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurements of the net defined liability, comprising of actuarial gains and losses, return on plan assets (excluding amounts included in net interest on the net defined benefit liability) and any change in the effect of asset ceiling (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through Other Comprehensive Income (OCI) in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Change in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the profit or loss as past service cost.

(iv) Bonus Plans

The Company recognises a liability and an expense for bonuses. The Company recognises a provision where contractually obliged or where there is a past practice that has created a constructive obligation.

(v) Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits at the earlier of the following dates: (a) when the Company can no longer withdraw the offer of those benefits; and (b) when the entity recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

(vi) Share based payments

Share-based compensation benefits are provided to employees via the Info Edge Limited Employee Option Plan and share-appreciation rights. These are equity settled schemes.

Employee options

The fair value of options granted under the Info Edge Employees' Stock Option Scheme is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the grant date fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or hold shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

Share appreciation rights

Share appreciation rights granted are considered to be towards equity settled share based transactions and as per IND AS 102, cost of such options are measured at fair value as at the grant date. Company's share appreciation rights are recognised as employee benefit expense over the relevant service period.

2.8 Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax is calculated on the basis of the tax rates and the tax laws enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations is subject to interpretation. It establishes provisions or make reversals of provisions made in earlier years, where appropriate, on the basis of amounts expected to be paid to / received from the tax authorities.

Deferred tax is recognized for all the temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, subject to the consideration of prudence in respect of deferred tax assets. Deferred tax assets are recognized and carried forward only if it is probable that sufficient future taxable amounts will be available against which such deferred tax asset can be realised. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled. The carrying amount of deferred tax assets are reviewed at each Balance Sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, associates and interest in joint arrangements where the company is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries, associates and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Deferred tax assets and liabilities are offset if a legally enforceable right exists to set off current tax assets and liabilities and the deferred tax balances relate to the same taxable authority. Current tax assets and liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

2.9 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

If the effect of the time value of money is material, provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects the risks specific to the liability. The increase in the provision due to the passage of time is recognized as a finance cost.

2.10 Leases (as lessee)

a) Operating leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Lease payments under an operating leases (net of any incentives received from the lessors) are recognised as an expense in the Statement of Profit and Loss on a straight line basis over the period of lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

b) Finance leases

Leases of property, plant and equipment where the company, as lessee, has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is apportioned between the finance charge and the reduction of the outstanding liability. The outstanding liabilities included in Non-current liabilities. The finance charge is charged to the Statement of Profit and Loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

2.11 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker (CODM).

All operating segments' results are reviewed regularly by the Company's Managing Director & Chief Executive Officer (MD & CEO) who been identified as the CODM, to assess the financial performance and position of the Company and makes strategic decisions.

The Company is primarily in the business of internet based service delivery operating in four service verticals through various web portals in respective verticals namely recruitment solutions comprising primarily naukri.com, other recruitment related portals and ancillary services related to recruitment, 99acres.com for real estate related services, Jeevansathi.com for matrimony related services and Shiksha.com for education related services.

(a) Description of segments and principal activities

The CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by business segments. Accordingly, information has been presented along these business segments. The accounting principles used in preparing these financial statements are consistently applied to record revenue & expenditure in individual segments. The reportable segments represent "Recruitment Solutions" and "99acres" and the "Others".

- 1: **Recruitment Solutions:** This segment consists of Naukri (both India and Gulf business) and all other allied business which together provides complete hiring solutions which are both B2B as well as B2C. Apart from all Other Online business, it also includes Offline headhunting business 'Quadrangle'.
- 2: **Real State- 99acres**: 99acres.com derives its revenues from property listings, builders' and brokers' branding and visibility through micro-sites, home page links and banners servicing real estate developers, builders and brokers.
- 3: **Others:** This segment comprises primarily Jeevansathi and Shiksha service verticals since they individually do not meet the qualifying criteria for reportable segment as per the Ind AS.

The CODM primarily uses a measure of profit before tax to assess the performance of the operating segments. However, the CODM also receives information about the segments' revenue and assets on a monthly basis.

(b) Profit before tax

Profit before tax for any segment is calculated by subtracting all the segment's expenses (excluding taxes) incurred during the year from the respective segment's revenue earned during the year. To calculate the segment level expenses, certain common expenditures which are incurred for the entity as a whole but cannot be directly mapped to a single segment are allocated basis best management estimates to all the segments.

Interest income is not allocated to segments as this type of activity is driven by the central treasury function. Similarly, certain costs including corporate expenses which are not directly related to general functioning of business are not allocated to segments.

2.12 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash on hand, amount at banks and other short-term deposits with an original maturity of three months or less that are readily convertible to known amount of cash and, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the company's cash management

2.13 Earnings Per Share (EPS)

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit for the year attributable to equity holders of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

• the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential instruments into equity shares.

For the purpose of calculating basic EPS, shares allotted to ESOP trust pursuant to the employee share based payment plan are not included in the shares outstanding as on the reporting date till the employees have exercised their right to

obtain shares, after fulfilling the requisite vesting conditions. Till such time, the shares so allotted are considered as dilutive potential equity shares for the purpose of calculating diluted EPS.

2.14 Treasury shares (Shares held by the ESOP Trust)

The Company has created an Employee Stock Option Plan Trust (ESOP Trust) for providing share-based payment to its employees. The Company uses the trust as a vehicle for distributing shares to employees under the employee remuneration schemes. The Company allots shares to the ESOP Trust. The Company treats the ESOP trust as its extension and shares held by ESOP Trust are treated as treasury shares. Share options exercised during the reporting period are satisfied with treasury shares.

The consideration paid for treasury shares including any directly attributable incremental cost is presented as a deduction from total equity, until they are cancelled, sold or reissued. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is transferred to/ from retained earnings.

2.15 Financial Instruments

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss, and
- those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses are recorded in profit or loss. For investments in equity instruments in subsidiaries, associates and jointly control entities these are carried at cost less diminution, if any, in these financial statements.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are two measurement categories into which the Company has classified its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows and where the contractual
 terms give rise on specified dates to cash flows that represent solely payments of principal and interest,
 are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at
 amortised cost is recognised in profit or loss when the asset is derecognized or impaired. Interest income
 from these financial assets is included in finance income using the effective interest rate method.
- Fair value through profit or loss (FVTPL): Assets that do not meet the criteria for amortised cost, are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net in the statement of profit and loss within other income in the period in which it arises. Interest income from these financial assets is included in other income.

Equity instruments

The Company subsequently measures all equity investments which are within the scope of Ind AS 109 at fair value, other than investments in equity instruments in subsidiaries, associates and jointly control entities, which are carried at cost less diminution, if any.

iii) Impairment of financial assets

The company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortized cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 41 details how the company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies the simplified approach permitted by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognized from initial recognition of the receivables.

(iv) Derecognition of financial instruments

A financial asset is derecognised only when

- the Company has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

A financial liability (or a part of financial liability) is derecognized from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

(v) Financial Liabilities

Financial liabilities are classified, at initial recognition, as loans and borrowings, payables, as appropriate.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to short term maturity of these instruments.

(vi) Income recognition

Interest income

For all debt instruments measured at amortized cost, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortized cost of a financial liability. When calculating the effective interest rate, the company estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses. Interest income is included in finance income in the statement of profit and loss

Dividends

Dividends are recognized in profit or loss only when the right to receive the payments is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably, which is generally when the shareholders approve the dividend.

2.16 Contributed Equity

Equity shares are classified as equity.

Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

2.17 Cash dividends to equity holders

The Company recognizes a liability to make cash distributions to equity holders when the distribution is authorised and is no longer at the discretion of the Company, on or before the end of the reporting period but not distributed at the end of the reporting period. A corresponding amount is recognized directly in equity.

2.18 Exceptional items

Exceptional items include income or expense that are considered to be part of ordinary activities, however are of such significance and nature that separate disclosure enables the user of the financial statements to understand the impact in a more meaningful manner.

Following are considered as exceptional items -

- a) Gain or loss on disposal of investments to wholly owned subsidiaries at higher or lower than the cost / book value
- b) Write down of investments in subsidiaries, jointly controlled entities and associates which are carried at cost in accordance with IND AS 27 to recoverable amount, as well as reversals of such write down.
- c) Impact of any retrospective amendment requiring any additional charge to profit or loss.

2.19 Critical estimates and judgements

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS that requires management to make accounting estimates which, by definition, will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. The estimates and assumptions used in the accompanying financial statements are based upon Management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Actual results could differ from these estimates.

Key sources of estimation of uncertainty at the date of the condensed interim financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment of non-current investments and has been discussed below. Key source of estimation of uncertainty in respect of current tax expense and payable, employee benefits and fair value of unlisted subsidiary entities have been discussed in their respective policies.

2.20 Estimation of Impairment on Non-Current Investment-

The Company carries reviews its carrying value of investments carried at amortised cost annually, or more frequently when there is an indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectation of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

During the period ended December 31, 2018, the Company has issued 350,000 (March 31, 2018: 350,000 & 200,000) equity shares of ₹10/- each fully paid up at ₹10/-per share (March 31, 2018: ₹100/- & ₹10/- per share) respectively to the Info Edge Employees Stock Option Plan Trust which have been listed in the respective Stock Exchanges , ranking pari passu with the existing equity shares of the Company.

b. Terms/Rights attached to equity shares

The Company has only one class of equity shares having a par value of ₹10 per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividend in Indian rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company in proportion to their shareholding.

c. Dividends
The Board of Directors in its meeting held on May 30, 2018 proposed a final dividend of ₹ 1.5 per equity share and the same was approved by the shareholders at the Annual General Meeting held on July 24, 2018. The amount was recognised as distribution to equity shareholders during the quarter ended September 30, 2018.

The Board of Directors in its meeting held on October 30, 2018 declared an interim dividend of ₹ 2.5 per equity share and the same was paid on November 19, 2018. The Board of Directors in its meeting held on January 29, 2019 has declared an interim dividend of ₹ 1.5 per equity share.

B) Information concerning the classification of securities Options

Options granted to employees under the Info edge Employee stock option plan are considered to be potential equity shares. They have been included in the determination of diluted earnings per share to the extent to which they are dilutive. The options have not been included in the determination of basic earnings per share.

25. During the year ended March 31, 2015, the Company had issued 10.135.135 nos, equity shares of ₹10/- each fully paid up at ₹740/- per share (including securities premium of ₹730/- per share) to qualified institutional buyers on September 12, 2014 pursuant to Qualified Institutional Placement (QIP) document, dated September 10th, 2014, as per provisions of section 42 of Companies Act, 2013 read with rule 14 of the Companies (Prospectus and Allotment of Securities) Rules 2014, and Chapter VIII of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 which have been listed in the respective Stock Exchanges on September 16, 2014.

Expenses incurred in relation to QIP amounting to ₹155.65 Mn had been adjusted from Securities Premium Account during the year ended March 31, 2015. The utilisation out of such net amount of ₹7,344.35 Mn till December 31, 2018 is given below. The balance amount of QIP proceeds remains invested in Mutual Funds (Debt) & Term Deposits with banks.

| Utilisation of funds | December 31, 2018 (₹Mn) | March 31, 2018 (₹Mn) |
|--|----------------------------|-------------------------|
| Balance Unutilised funds as at the beginning of the period/year | 5,457.75 | 5,915.42 |
| Utilised during the period/year-working capital and general corporate purposes (99acres) | 661.84 | 457.67 |
| Balance Unutilised funds as at the period/year end | 4,795.91 | 5,457.75 |

26. During the period ended December 31, 2018, the Company has issued 350,000 nos. equity shares (March 31, 2017; 350,000 & 200,000 nos. equity shares each fully paid up ₹100/- & ₹10/- respectively) each fully paid up at ₹10/- per share respectively to Info Edge Employees Stock Option Plan (ESOP) Trust, which have been duly listed in the respective Stock Exchanges, ranking pari passu with the existing equity shares of the Company. The ESOP trust has in turn issued 307,364 nos. equity shares and 507,516 nos. equity shares fully paid up to the employees during the period/year ended December 31, 2018 & March 31, 2018 respectively.

27. During the period ended December 31, 2018 diminution in the carrying value of investment in respect of Startup Investment (Holding) Ltd amounting to ₹103.54 Mn (previous period ended December 31, 2017 ₹ 210.03) and Smartweb Internet Services Ltd ₹56.12 Mn (represented by Investments in equity shares) was made.

28 : Fair value measurements

a) Financial instruments by category

| | | | | Amount (₹Mn) | | |
|-----------------------------|-----------------------------------|-------------------|-----------------------------------|----------------|--|--|
| | December | December 31, 2018 | | March 31, 2018 | | |
| | Fair value through profit or loss | Amortised cost | Fair value through profit or loss | Amortised cost | | |
| Financial Assets | | | | | | |
| Loans | - | - | - | - | | |
| Investments* | | | | | | |
| - Mutual Funds | 3,722.92 | - | 11,455.71 | - | | |
| - Preference Shares | - | 553.91 | - | 506.61 | | |
| - Debentures | - | 1,321.76 | - | 831.25 | | |
| Trade and other receivables | - | 62.81 | - | 44.03 | | |
| Cash and cash Equivalents | - | 494.90 | - | 740.07 | | |
| Other bank balances | - | 872.36 | - | 718.09 | | |
| Other financial assets | - | 11,158.58 | - | 3,090.19 | | |
| Total Financial Assets | 3,722.92 | 14,464.32 | 11,455.71 | 5,930.24 | | |
| Financial Liabilities | | | | | | |
| Borrowings | - | 9.87 | - | 7.50 | | |
| Trade payables | - | 649.24 | - | 537.78 | | |
| Total Financial Liabilities | - | 659.11 | - | 545.28 | | |

^{*}Excluding investments in subsidiaries, joint ventures and associates measured at cost in accordance with Ind AS-27

Fair value hierarchy

The following section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value through profit or loss. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial investments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

b) Fair value hierarchy for assets

| Financial assets measured at fair value at December 31, 2018 | | | | Amount (₹Mn) |
|--|----------|---------|---------|--------------|
| | Level 1 | Level 2 | Level 3 | Total |
| Financial Assets | | | | |
| Investments | | | | |
| - Mutual Funds-Daily Dividend & Debt Liquid Fund | 3,722,92 | - | - | 3.722.92 |

| Financial assets measured at fair value at March 31, 2018 | | | | Amount (₹Mn) |
|---|-----------|---------|---------|--------------|
| | Level 1 | Level 2 | Level 3 | Total |
| Financial Assets | | | | |
| Investments | | | | - |
| - Mutual Funds-Daily Dividend & Debt Liquid Fund | 11.455.71 | - | - | 11.455.71 |

Notes

Level 1 hierarchy includes financial instruments measured using quoted prices (unadjusted) in active market for identical assets that the entity can access at the measurement date. This represents mutual funds that have price quoted by the respective mutual fund houses and are valued using the closing Net asset value (NAV).

Level 2 hierarchy includes the fair value of financial instruments measured using quoted prices for identical or similar assets in markets that are not active.

Level 3 If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted compound instruments.

There are no transfers between any of these levels during the period/year. The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

c) Valuation techniques used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or mutual fund houses quotes (NAV) for such instruments. This is included in Level 1.
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis for which third party valuer is appointed. This is included in Level 3.

d) Fair value of financial assets and liabilities measured at amortised cost $% \left(1\right) =\left(1\right) \left(1$

The carrying amounts of loans, trade receivables, cash and cash equivalents, other bank balances, other financial assets and trade payables are considered to be the same as their fair values, due to their short-term nature. The fair values for security deposits, Investment in preference shares & investment in debentures and borrowings are calculated based on cash flows discounted using a current lending rate, however the change in current rate does not have any significant impact on fair values as at the current period end. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs, including counter party credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

(e) Fair value measurements using significant unobservable inputs (level 3)

The following table presents the changes in Level 3 items for the period ended December 31, 2018 and previous year ended March 31, 2018

| Particulars | Unlisted equity securities (₹Mn) |
|--------------------------------------|--|
| As at April 01, 2017 | - |
| Disposal including related gain/loss | - |
| As at March 31, 2018 | - |
| Disposal including related gain/loss | _ |
| As at December 31, 2018 | - |

(f) Valuation processes

The Company uses third party valuers to perform the valuations of the unquoted equity shares, preference shares and debentures required for financial reporting purposes for Level 3 purposes other than

investment in compulsorily redeemable preference shares and debentures (Debt instruments) which are done by Finance department of the company.

The main Level 3 inputs for these unlisted securities are derived and evaluated as below.

- Discount rates are determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the asset.
- Earnings growth factor for unlisted equity securities are estimated based on market information for similar types of companies to the extent available.

Significant estimates

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The group uses its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of each reporting period. For details of the key assumptions used and the impact of changes to these assumptions

29. As mandated by notification issued by Ministry of Corporate affairs (MCA) under Companies (Indian Accounting Standards) (Amendments) Rule 2018,effective April 01, 2018 the Company has adopted Ind AS 115 on Revenue from Contracts with Customers, using the modified retrospective approach. The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and comparative information is not restated in the condensed interim statement of profit and loss. The adoption of the standard did not have any material impact on the recognition and measurement of revenue and related items in the financial statements/results.

The company has as a matter of practical expedient recognised the incremental costs of obtaining a contract as an expense when incurred, since the amortisation period of the asset that the entity otherwise would have recognised is generally one year or less.
